PROFILE

A result driven individual who was the best graduating student in her department. I have a huge interest in technology and a fervent passion for solving problems with it. As an efficient learner who also pays attention to details, I enjoy putting into practice my theoretical knowledge and being a part of movements/teams that are targeted at providing solutions to the problems of humanity.

EDUCATION

Software development,
Microverse Online Training School
February 2023 – September 2023
- A full time programme that required 30+ hours weekly mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Software Engineering Diploma, ALX-Holberton School
March 2022 – May 2023
A diploma in software engineering, which prioritize teamwork to help grasp the theoretical and practical aspects of programming.
